What is "Be WISE"?

Be WISE is a science and math camp designed to develop interest, excitement and self-confidence in girls who are entering grades 7 & 8 in the fall of 2014. This week-long residential camp for 130 girls will be held from June 15-20, 2014. The camp will feature a separate curriculum for each grade level, emphasizing hands-on activities. Class size will be small—just ten students per teacher!

Who Will Direct the Camp?

Averaging 20+ years of classroom teaching, the majority of our teachers have been involved in the Be WISE Camp since it began in 1989. College and high school girls have been recruited to be camp counselors. Each camper will be assigned to a small family group with the same counselor for the week. A lifeguard will be on duty for swimming activities.
